AUSTIN COLLEGE**

Students who come to Austin College face an amazing array of opportunities for academic and personal growth. Whether serving close to home or studying in distant destinations, today's 'Roos will see and change the world.

But before they can go out there, we have to get them here. That's why your gift to Austin College—whether large or small—can make a difference. We believe every student who wants to come here should have the chance, no matter their financial ability. More than 65 percent of our students receive financial aid, and many are the first in their family to attend college.

Austin College's commitment to scholarship availability is sustained by the generosity of alumni and friends whose gifts help launch the journey to a world-changing future for a new generation of students.

**You can help them go there.**
